DESCRIPTION

The perfect ramekin for every recipe!

For small portions, the size and volume are particularly important for perfect cooking.

The oven cooking is homogeneous and does not dry out the edges, thanks to our HR (High Resistance) ceramic. The high resistance of our glazes protects your ramekin from scratches and shocks and allows you to wash it regularly in the dishwasher without risk of alteration.

Like all Emile Henry products, the ramekins are made in France and guaranteed for 10 years.
