BESCHRIJVING

Cinematic Visual & Audiophile Sound

If you have ever tried to watch a Blu-ray movie on your PC or notebook only to be disappointed by poor audio and lackluster visuals, ASUS Impresario SBW-S1 PRO is the perfect solution for you.

ASUS Impresario SBW-S1 PRO is the world's first Blu-ray writer with a built-in sound card that provides 7.1-channel audio output and functions as a 600 ohm headphone amplifier.

Immersive 7.1-channel audio

True 7.1-Channel Audio

Regular notebooks only support 2-channel stereo sound, but ASUS Impresario SBW-S1 PRO functions as an external sound card with true 7.1-channel output to bring incredibly immersive entertainment experiences to your PC in one easy step.

Virtual Surround Sound

A dedicated digital signal processor (DSP) enables ASUS Impresario SBW-S1 PRO to deliver a full surround sound experience using only stereo speakers or headphones.

600 ohm Headphone Amplifier

ASUS Impresario SBW-S1 PRO has a built-in 600 ohm headphone amplifier that reveals an incredible level of detail in music and movies, and enhances high and low frequencies for rich, dynamic sound that far surpasses audio from a notebook alone.

114 dB Signal-to-Noise Ratio

Bovenstaande informatie is uitsluitend informatief/indicatief en aan wijziging onderhevig

Enjoy up to 16X clearer audio than average onboard audio solutions for a truly premium PC listening experience.

Cinematic Blu-ray video
Blu-ray Entertainment
Play Blu-ray 3D, Blu-ray, and DVD titles as well as media files on Blu-ray or DVD.

Blu-ray 3D + 7.1 Surround
Enjoy truly immersive entertainment at home with Full HD and 3D Blu-ray video playback and true 7.1-channel surround sound.

2D to 3D Conversion
Upgrade your DVD video experience with one-click 2D to 3D conversion and HD upscaling.

Mobile Devices Remote Control
Download PowerDVD Remote FREE from Google Play or the App Store and control video playback with your smartphone or tablet.

Silent Playback
Four specially designed dampers at the corners of the optical disc drive mount reduce vibration and noise by up to 8dB. Even at maximum speed, the drive's noise level is only 36.3dB(A)
